Sorry Reyhan, I was out a bit in April. I thought CSTAG posted it to their website but I have not seen it yet. We did give a copy to the CAG too and they posted it.

Yes, we met with CPG and they understand that we are taking CSTAG comments into account moving forward. They agreed to work with us on the recommendations.

Hi Diane,

I see that the answer to my question is that the recommendations have been made public since the letter went out to the CAG this morning. Have you received any feedback from the CPG on whether they'd be willing to accept the approach proposed in that letter?

Thanks Diane! Interesting feedback. If you feel like a discussion would be helpful, I'm certainly game. Clay? I don't see this letter posted to the CSTAG site yet; is this document not made public until the Regional response is issued?

Reyhan and Clay,

We've received the final CSTAG comment memo, please let me know if you would like to discuss. EPA's responses to the memo will be coming out within a month.

Thanks

Diane Salkie
